

# COMPANY PROFILE

## Who are We?

**24x7Rooms.com** is a global **B2B platform** which allows the travel agent to access an excellent portfolios of hotel, sightseeing, transfer and car rental with **24x7 support**, hassle-free booking experience.

Our Head Office is located in **Bahrain** and along with this we have branches in countries like UAE, India, South Africa, Qatar, Kuwait, Jordan, Pakistan, Bangladesh, Sri Lanka, Egypt, Macedonia, UK, Ghana, Tunisia & Algeria and we are further expanding.

The Company's own **B2B global online** reservation engine – 24x7Rooms.com which was launched in 2012.

Being an Online **B2B Wholesaler**, we provide booking engine to book worldwide Hotels, Transfers, Sightseeing and Car Rental 'real-time' to Travel Agents across the globe. By Online Platform, our registered travel agents can perform a booking any time of the day and can book round the year requirements. Thus, we are available 365.

With our edge technology, being in B2B distribution we cater travel agents across the globe & have a portfolio of 15,000+ travel partners within our reach, these are handpicked agencies through our network and out of which around 7,000+ agents are actively working with us.

Major distribution is in GCC, Indian sub-continent & African continent due to our proximity and reach. We started our wings with one region but now have become a global brand.

We have 320,000 properties, 15,000 sightseeing option, and 10,000 means of transport and Car Rentals to choose from across the globe.

XML distribution network is something which has been growing rapidly in last 2 years. At present we have 50+ XML customers which are mainly European OTAs.

# Global Alliance

# 24x7 Rooms App

Download and login today in the 24x7Rooms.com booking app and take complete control over your business, anytime, anywhere.

The app allows you to search for any hotel in any destination with a nicely laid out card-like interface and gives you numerous options to customize your search, from the star ratings, to price, to popularity, to number of rooms and more. The price is displayed and payment is accepted in all major currencies.

The app also contains a BI interface displaying the overall and in-depth statistics of your business. In simple words, it has everything you get on our web version albeit in a more compact and easy to use format. It's light-weight design will make sure you get access to one of the largest inventories in the least amount of time.
