ASTRA

OILFIELD SERVICE & TRADING

Astra Oilfield Service and Trading is an emerging leader in Qatar's Oil and Gas sector. Committed to operational excellence and quality, we are ISO 9001:2015, 14001:2015, and 45001:2018 certified, with an ICV certification score of 46.

We follow industry standard processes and promote innovation, efficiency and precision as a company culture. Our partners provide a comprehensive range of services and products to meet your unique needs. We enjoy delivering exceptional solutions and reliable support to the sector.

Owning the responsibility to preserve the resources for future generations, we operate sustainably and ethically, by emphasis on environmental stewardship and social responsibility.

We are proud to be part of Qatar's dynamic Oil & Gas landscape. Together, let us unlock new possibilities and reach greater heights!

Explore our comprehensive range of services and products presented here.

Services

1. **NOV certified service centre for servicing downhole tools**
2. **Fishing tool servicing**
3. **Bucking services - Makeup and Breakout services for Oil**
4. **Country Tubular Goods**
5. **Dressing of Milling Tools**
6. **PDC Bit Re manufacturing**
7. **Hard Facing of stabilisers & Motor Sleeves**
8. **Welding, Fabrication and Machine Services**
9. **Positive Pressure Welding Enclosure (PPWE) Habitats.**
10. **High Temperature Resistant Products and Systems.**

Products

1. **Open Hole & Cased Hole Whipstock System Assembly**
2. **Fishing Tools**
3. **Mills**
4. **Stabilisers**
5. **Chemicals - Oilfield, Water treatment, Methanol derivatives. Explosion Proof Lighting & Equipment.**
6. **MRO Products.**
7. **Cable Laying Equipments.**
8. **Termination kits**
9. **Valves | Hoses | Tubing & Fittings.**
10. **Electronic Instruments - DDTOP.**
11. **Line Pipes/ OCTG Products. Personnel Protection Equipment (PPE).**
12. **Cable Trays, Trunking & Accessories.**

Qualified to Service

- Drilling Motor Series 40
- Drilling Motor Series 36
- Double Acting Hydraulic Drilling Jar Intensifier
- Griffith Force Double Acting Hydraulic Drilling Jar
- PowerStroke Drilling Jar
- Power Section

BHA TOOLS SERVICE CENTER

ASTRA is currently the only NOV authorized service provider in the country to service NOV downhole tools.

Our equipment is designed for make-up and break-out of all rotary tools and premium connections of casing and tubing in the range from 2 3/8" to 17" OD pipe. Torque capacity is **Make up and Break out - 5,000 to 110,000 ft-lb.**

Our team certified by NOV offers complete repair, inspection and maintenance of Drilling motors, drilling jars, shock subs, power strokes, reamers and other tools used in the oilfield. We provide Inspection Services for the complete range of traditional and custom downhole tools for drilling, fishing, well intervention, re-entry and well completion applications.

BHA RENTAL SERVICES

- Drill bit
- Near bit sub
- Float sub
- String Stabilizers
- Internal blow out preventor (IBOP)
- Roller reamer
- Hole opener
- Subs
- Xovers
- Motor
- Drilling Jar
- Hammer Union

HVOF COATING

The HVOF (High-Velocity Oxygen Fuel) coating process uses a high-velocity, high-temperature gas stream to propel a partially molten powder material onto a substrate, creating dense, low-porosity coatings with excellent adhesion and properties like wear and corrosion resistance.

DRIFT RENTAL

Drifting means measuring a pipe's inner roundness. Drifting is typically performed by passing a cylindrical mandrel through the length of the pipe to detect occlusions. It occurs both at the pipe mill and in the field. Drifting is performed to ensure that tools, pumps, smaller pipe, and other items can be passed through the pipe.

★ STUB WELDING

Stub welding is proven to extend the life of valuable downhole tools. This process can save repairable tools from the scrap heap and, as a result, reduce financial losses for oil and gas companies.

★ HARD FACING OF STABILISERS & MOTOR SLEEVES

Hard facing is the application of hard, wear-resistance material to the surface of a component by welding, thermal spraying or a similar process for the main purpose of reducing wear.

★ PRESURE TEST SERVICES (HYRO & GAS TEST)

Hydrostatic testing (using a liquid like water) and pneumatic testing (using a gas like nitrogen)

★ MILLING TOOLS - DRESSING / MANUFACTURE

- Junk Mills
- Economills
- Taper Mills
- Pilot Mills
- Watermelon Mills
- String Mills
- Window Mills
- Thru-tubing
- Section Mill Cutter Knives
- Pipe Cutters
- Washover Shoes
- Fishing Basket

★ PDC BIT REFURBISHMENT

- PDC Cutter Replacement
- Cutter Turning
- Gauge Area Hard Facing
- Bit Dull Grading
- NDT and Visual Inspection
- PDC Bit Grinding

STABILISERS | WHIPSTOCK | FISHING TOOLS

STABILISERS | Our range is from 5.3/4" to 36" available as Near Bit or String Type. We also offer Non-Magnetic Near Bit and String stabilizers, Turbo Back Stabilizers and Crates Stabilizers. We also customize drill string stabilizers to client specified hole sizes.

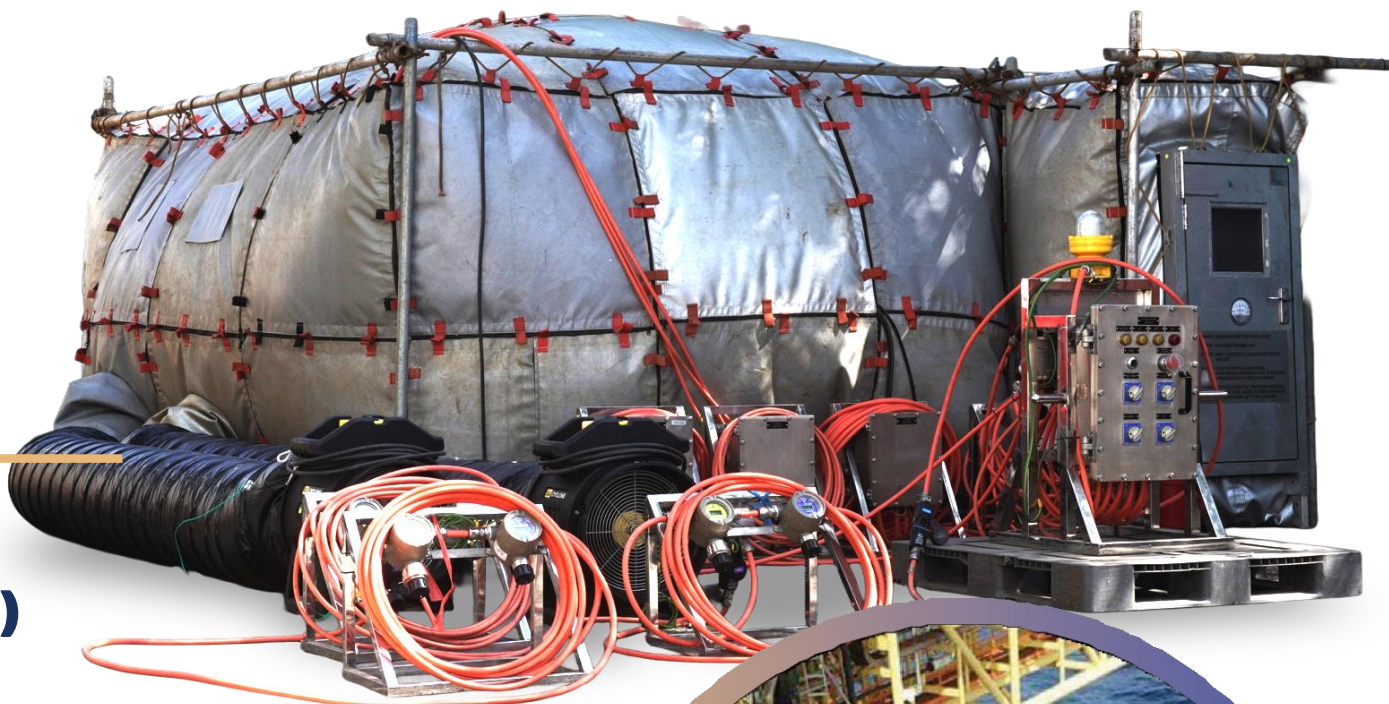

WHIPSTOCK | Whipstock system for cased-hole re-entry systems. Regardless of casing size, grade, depth, or inclination, it is compatible with any drilling and liner program. Set either mechanically or hydraulically, our systems can quickly mill clean, full-bore windows and ratholes in a single trip.

FISHING TOOLS | We provide various types of fishing tools for drilling.

Cross Over Subs | Junk Baskets | Drill Stem Subs | Screw in Subs | Pin Taps | Die Collars | Taper Taps | Lead Impression Blocks | Rope Spears | Crank Shaft Rope Spear | Centre Prong rope Spear | Rotating Spears | Circulating Subs | Pipe Cutters

THE POSITIVE PRESSURE WELDING ENCLOSURE (PPWE) HABITATS

BEYOND JUST A PROTECTIVE BARRIER

PPWE Habitats can allow hot work to be carried out in a clean, safe and hazard free manner, without the need to shut-down the facility or a plant. Conducting hot works in a highly volatile environment requires more than a physical barrier. Our PPWE Habitats is part of a sophisticated safety system encompassing consultation, risk assessment, detection and monitoring equipment, and experienced technical personnel.

HIGH-TEMPERATURE RESISTANT PRODUCTS AND SYSTEMS

High temperature resistant products and systems that are used in a wide range of applications, especially when extreme thermal and chemical conditions are involved. Most of our products can be converted or tailored according to the client's specific requirements and applications.

Hot Spot Repair Service is used when there is a damage to the existing internal insulation such as refractory or ceramic fiber lining on the wall or the ducting of a fired heater system.

We provide maintenance and repair of the hot spots, which enables the thermal unit to remain online until the next scheduled maintenance shutdown. The damaged sections can then be repaired or replaced in a planned manner, sometimes even after a number of years.

TUBING & FITTINGS: SOLUTIONS FOR DIVERSE APPLICATIONS

Instrumentation Tubing | High Purity Tubing | Medium and High-Pressure Tubing | Jacketed Tubing | Insulated Tubing | Heat Trace Tubing

Additional to the medium and high-pressure usage, we offer High Purity & Ultra High Purity products that cater to applications requiring utmost precision and purity.

Materials available are as SS304, 316, 316L, 316L VAR, 316L VIM/VAR, 904L, Alloy20/400/600/625, C-276, Duplex, and Super Duplex for diverse applications.

EXPLOSION-PROOF LIGHTING & EQUIPMENT:

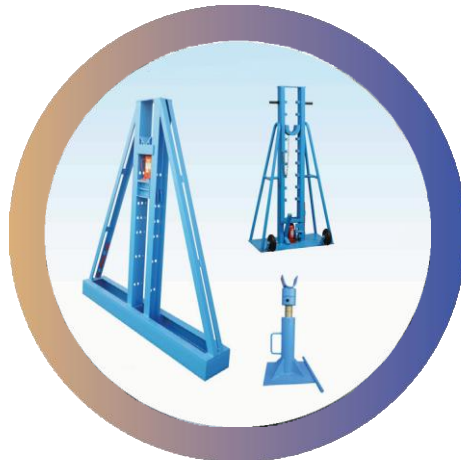

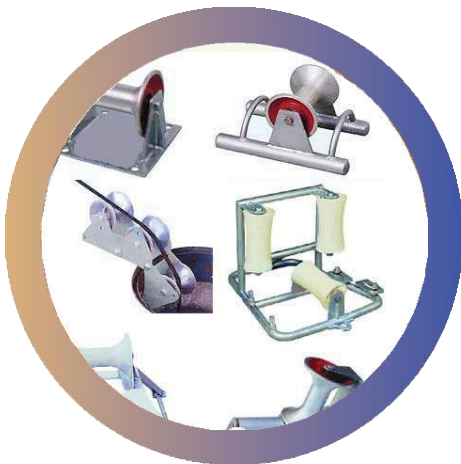

- ex Junction Boxes & Equipment
- ex Lights & Fixtures
- ex Plugs & Sockets
- ex Cable Glands & Fittings

CABLE LAYING EQUIPMENT

We supply the best quality Cable Laying Tools and Equipments in Qatar from the renowned manufacturers. We have good experience in supplying these Equipments to the various projects in Qatar

Cable Rollers & Guides
Cable Pulling Winches & Trailers
Cable Tray Rollers
Cable Drum Handling Equipment & Tools
Cable & Duct Pulling Accessories

HOSES & FITTINGS

We supply a wide range of hydraulic hoses & industrial hoses in various applications.

Utility Rubber Hose
Hydraulic Hose
Flexible Metal Hose
Expansion Joint
Composite Hose
MIL Standard Hose
Lay Flat Hose
Other Industrial Hoses

Dry Discount Coupling
Quick Coupler
Camlock Coupler
Universal Claw Coupler
Steam Coupler
Other Industrial Couplers
Accessories
Other Engineering Services

PROTECTORS (PREMIUM & API)

- *API rotary connections*
- *Rotary premium connections*
- *VAM Connections*
- *Tenaris Connections*

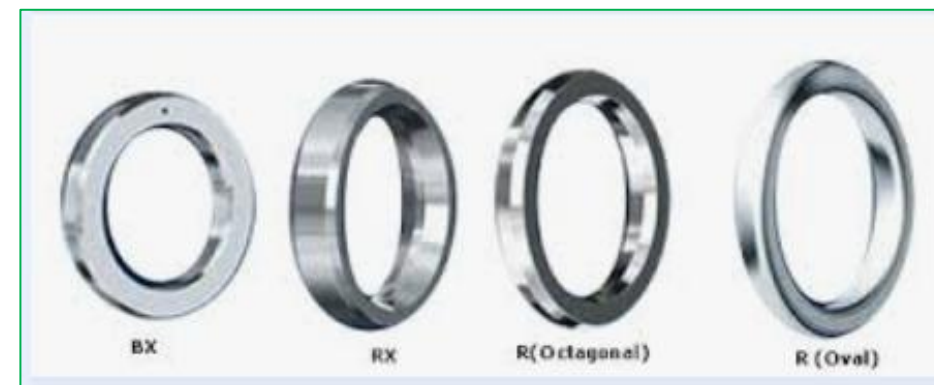

STUD NUTS (FASTENERS API & NON-API) WITH ALL TYPES OF SURFACE COATING AS PER REQUIREMENT

VALVES: RELIABLE SOLUTIONS FROM REPUTED MANUFACTURERS

GASKETS (API & NON-API)

STORAGE COMPOUNDS & INDUSTRIAL DOPE

- Kendex
- ZN-50
- Bestolife 72733
- Kopr-Kote (Jetlube)
- Redox
- Clare 601rs
- Mercasole
- Molycote

PERSONAL PROTECTIVE EQUIPMENT (PPE): SOLUTIONS FOR WORKPLACE SAFETY

MAINTENANCE, REPAIR, AND OPERATING (MRO) & INDUSTRIAL SUPPLIES

Abrasives | Sealants | Electrical Components | Fasteners |
Gaskets | Lubrication and Hydraulics | Test Instruments |
Hardware | Machining Supplies | Cleaning Products

LINE PIPES/ OCTG PRODUCTS:

We offer an extensive selection of line pipes to cater to the diverse needs of various industries and applications. Our high-quality steel pipes are available in a variety of types, including ERW, LSAW, and Seamless, ensuring we can provide the right solution for your specific requirements.

Our line pipe materials consist of:

Galvanized Iron (GI)

Mild Steel (MS)/ Carbon Steel

Stainless Steel

Alloy Steel

Nickel-Alloy

We also provide a comprehensive selection of Oil Country Tubular Goods (OCTG) products in various sizes, grades, connections, and coatings to fulfill a wide array of operational needs across multiple industries.

H40, J55, K55, N80, L80, P110, Q125

We offer a range of API 5B casing and tubing connections to ensure compatibility and ease of use:

Nickel-Alloy

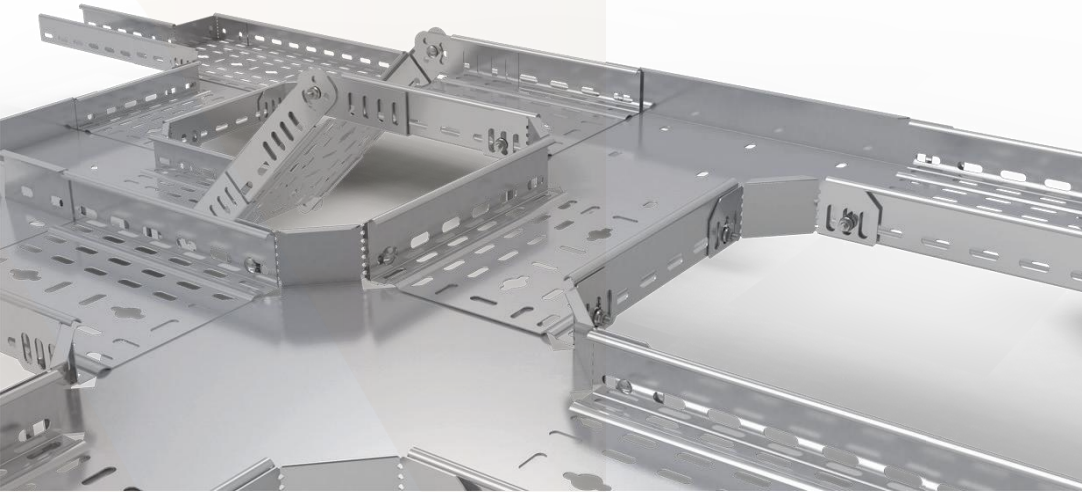

Copper-Nickel

Duplex & Super Duplex

Ductile Iron Grade A333

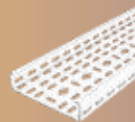

CABLE TRAYS, TRUNKING & ACCESSORIES: CUSTOMIZED SOLUTIONS FOR ELECTRICAL SUPPORT

We specialize in supplying cable trays, trunking, and their required accessories to meet our customers' electrical support needs. Our products are in SS 316 grade stainless steel for enhanced durability and performance.

These high-quality products are manufactured with high standards, ensuring that our clients receive reliable, tailored solutions for their electrical support requirements.

ELECTRONIC INSTRUMENTS- DDTOP

We represent Dandong Top Electronics Instrument (Group) Co., Ltd ("DDTOP") was established in 1992 and kept providing safe and reliable level and flow instrument products for process industry since then. Now it has become a leading level and flow instrumentation manufacturer of China and around world. DDTOP has committed to the goal of designing and manufacturing reliable instruments that keep the process industry's operations safe.. We provide products and solutions for the market, including level meters, flow meters, magnetic pumps, flow meter calibration facilities, loading and unloading systems, tank farm management systems, and industrial control systems.

DDTOP has also made remarkable achievements in international projects, becoming the first Chinese instrument supplier to join the ADNOC, Qatar National Petroleum Corporation, and PETRONAS. It also became Técnicas Reunidas and Samsung Engineering Corporation (SECL), PETROFAC, CPECC, Saipem, Hyundai Engineering Corporation (HEC), Fluor, CTCL, Archirodon, Al Asab and other internationally renowned EPC companies' long-term global partners.
